Resources

PROFILE

Who we are

KEA Legacy – Resources is an independent specialised services division aimed at reaching beyond the Business Development, Support and Managements (technical services) portfolio of KEA Legacy.

It serves as a resources consolidation department that can tender for jobs and be employed to offer other services either than technical services. It enables other small businesses to club in a specified work and perform the stipulated task under management and supervision of KEA Legacy.

KEA Legacy aims to be a solution to all challenges facing all industries in South Africa, our services ranging from Logistics (transportation solutions), Events Planning and Management, Industrial Supplies, Construction, Hydro-mining and Tailings Deposition Management services.

‘We are everything our clients need us to be’

Logistics – Transportation and Plant Hire

KEA Legacy offers three main logistic services, namely, material handling and transportation, Peoples and Goods Transportation and plant equipment hire services. Each of which has various services as indicated below.

1. Material handling and transportation

Tipper Trucks, Tanker Services, Side Tippers, Front End Loaders, Excavators, TLBs and others

2. Peoples and Goods Transportations services

Bus, Minibus, taxis, Carriers and mail delivery services, goods transportation and etc.

3. Plant Equipment Hire

Submersible and diesel pumps, yellow machinery and others

Mining services

We offer low cost mining solution, ranging from Hydro mining, Tailings deposition management, mining supply and construction services.

1. Hydro mining solution – use high pressure water guns to mine material from tailings dams and silted material in return water dams and etc
2. Mechanical mining – use yellow machines to mine deposits and feed a plant
3. Tailings deposition – we construct tailings dams and manage the deposition of material into the tailings dam
4. Construction – construct dams, trenches, siltraps, paddocks and other civils
5. Mining supplies – we supply ranges of consumables, ranging for metallurgical, mechanical/engineering, safety and security and other general supplies.

Events Planning and Management

We do cooperate events planning and managements, from workshops, team building, industrial training and space/stage/concert planning and management.

1. Workshops – we organize cooperate workshop that cover various business functions, such as, cooperate leadership, management workshops, labour law and ER workshops
2. Team Building – We arrange various team building exercises to enhance team work and improve productivity
3. Industrial training – Offer workplace training modules, from production, safety and other related industrial courses
4. Conferences and Catering Services – We offer catering services for cooperate events and conferences. We also organise, market and administrate conferences
5. Space/Stage/Concerts
